Honorable Director of Patents and Trademarks

P.O. Box 1450

Alexandria VA 22313-1450

Dear Sir,

In accordance with the provisions of 37 C.F.R. Sections 1.97-1.98, submitted herewith is Form PTO-1449 along with copies of the three references identified therein. Also submitted herewith is a copy of the British search report dated October 7, 2003 in which these references were cited.

It is noted that all three references were cited in the British search report merely as a category A documents, i.e. of technological background interest only. It is believed that none of them shows or suggests a system with the features as claimed in the present claims. In particular, none of them shows a containment system in which a second containment unit is nestable between strengthening flanges of a first containment unit.

It is therefore submitted that the claims of this application are clearly patentable over these references.

Examination of the application on its merits is awaited.

Date:

3/31/84

Respectfully Submitted
